

DREAM SMILE VENEERS

Digital Transformation Proposal

Project: AI-Powered Business Automation & Omni-Channel Experience

Date: February 2026 | **Confidential**

1. Deliverables & Development Cost

#	Module	Cost
1	WhatsApp AI Sales Agent	₹15,000
2	AI Image Generation ("Magic Mirror")	₹40,000
3	Website AI Customer Support	₹25,000
4	Mobile App (iOS + Android)	₹1,50,000
TOTAL DEVELOPMENT		₹2,30,000

2. Cost Optimization Strategy (Layer by Layer)

For every technology layer, we compare the **Standard (Expensive)** approach vs. our **Optimized (Smart)** approach — and explain why.

● Layer 1: WhatsApp Connectivity

	Standard Approach	Our Optimized Approach
Provider	Interakt / AiSensy (3rd Party)	Meta Cloud API (Direct, Free)
Monthly Cost	₹999 - ₹2,500/mo	₹0 (First 1000 convos free)
Setup	Easy (No Meta verification)	Requires Meta Business verification
Control	Limited (Provider's dashboard)	Full (Custom dashboard)

Client's Choice: Client prefers **3rd Party** (no Meta registration hassle).

Cost Impact: +₹999/mo but saves weeks of setup time.

● Layer 2: AI Intelligence (Chatbot Brain)

	Standard Approach	Our Optimized Approach
Provider	OpenAI GPT-4o-mini	Groq (Llama 3.3 70B)
Cost	~₹0.01/message	₹0 (FREE)
Speed	~1 second	~0.2 seconds (5x faster)
Quality	Excellent	Excellent (on par for FAQ/Chat)

Hindi	✓	✓
Cost at 1L users	~₹15,000/mo	₹0/mo

Our Choice: Groq (Primary) + Gemini Flash (Fallback) + OpenAI (Emergency).
Savings: ~₹15,000/mo at scale.

● **Layer 3: AI Knowledge Restriction (RAG)**

	Standard Approach	Our Optimized Approach
Method	Fine-tune a custom model	RAG (Retrieval Augmented Generation)
Cost	₹50,000+ (training)	₹0
Update Ease	Retrain entire model	Just upload new PDF
Accuracy	Can hallucinate	Strictly answers from your docs only

Our Choice: RAG — Upload PDFs/FAQs to vector store. AI only answers from that data.
Savings: ₹50,000+ in training costs.

● **Layer 4: AI Image Generation**

	Standard Approach	Our Optimized Approach
Provider	Midjourney / DALL-E 3	Fal.ai (Flux.1 Inpainting)
Cost	₹2,000/mo (subscription)	₹0.25/image (pay per use)
Control	Generic prompt-based	AR-Guided (uses your veneer 3D model)
Realism	Medium	High (Inpainting = surgical precision)

Our Choice: Fal.ai — No monthly subscription. Only pay when a user actually generates.
Savings: ₹2,000/mo fixed → ₹0 when idle.

● **Layer 5: Database**

	Standard Approach	Our Optimized Approach
Provider	AWS RDS / PlanetScale	Supabase (PostgreSQL)
Cost	₹2,500 - ₹8,000/mo	₹0 (Free) → ₹2,100/mo (Pro)
Features	Database only	DB + Auth + Storage + Vector + Realtime
Vendor Lock-in	High	Low (Standard PostgreSQL)

Our Choice: Supabase — One platform replaces 4 separate services.
Savings: ₹6,000/mo vs AWS equivalent.

● **Layer 6: Server & Hosting**

	Standard Approach	Our Optimized Approach
Provider	AWS EC2 / DigitalOcean	Vercel (Serverless) + Cloudflare
Cost	₹1,500 - ₹5,000/mo	₹0 (Free Tier)
Scaling	Manual (resize server)	Automatic (serverless)
Speed	Single region	Edge Network (300+ global servers)

Our Choice: Vercel + Cloudflare — Zero hosting cost, auto-scales, globally fast.
Savings: ₹5,000/mo.

● **Layer 7: CRM (Lead Management)**

	Standard Approach	Our Optimized Approach
Provider	HubSpot / Salesforce	Custom Admin Dashboard (Built-in)
Cost	₹4,000 - ₹15,000/mo	₹0 (Included in development)
Features	Overkill for early stage	Exactly what you need

Our Choice: Custom CRM — Lead list, status tracking, export to Excel. Built into admin panel.
Savings: ₹4,000+/mo.

● **Layer 8: Mobile App**

	Standard Approach	Our Optimized Approach
Method	2 Separate Native Apps (Swift + Kotlin)	React Native (Expo) — Single Codebase
Dev Cost	₹3,00,000+	₹1,50,000
Maintenance	2x effort (2 codebases)	1x effort (shared code)

Our Choice: React Native — One codebase, two platforms.
Savings: ₹1,50,000 in development.

3. Final Cost Summary

A. One-Time Costs

Item	Amount
Development (All 4 Modules)	₹2,30,000
Google Play Store Account	₹2,100 (One-Time)
Apple Developer Account	~₹8,000/year

B. Monthly Infrastructure & Maintenance

Estimated monthly cost for all server, database, API, and maintenance services.

What's included:

Service	What It Covers
Database (Supabase Pro)	All user data, chat logs, orders, vectors
WhatsApp API (3rd Party)	Interakt/AiSensy platform fee
AI Chatbot (Groq + Fallback)	WhatsApp + Website chatbot intelligence
AI Image Generation (Fal.ai)	Magic Mirror usage
Web Hosting (Vercel/Cloudflare)	Website + API hosting
Server Monitoring	Uptime checks, error alerts

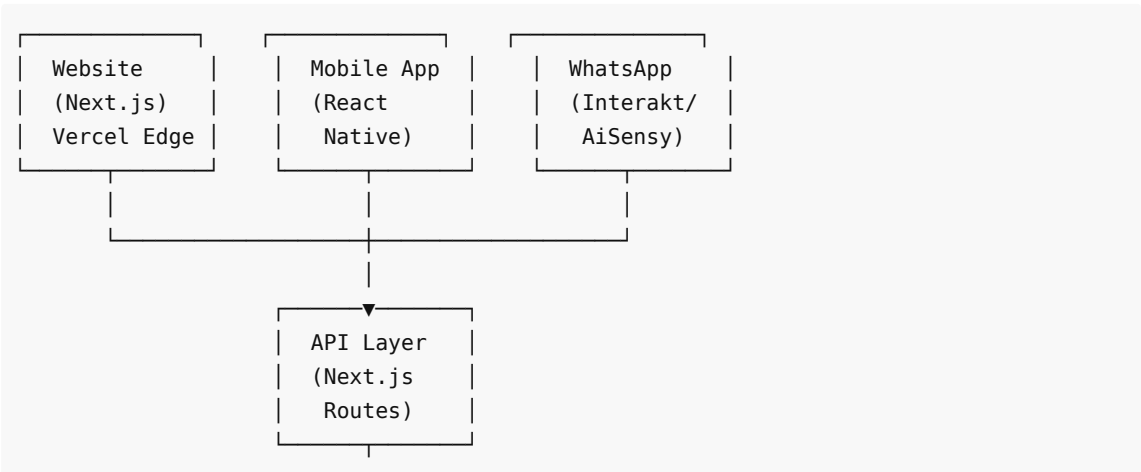

Why costs stay low:

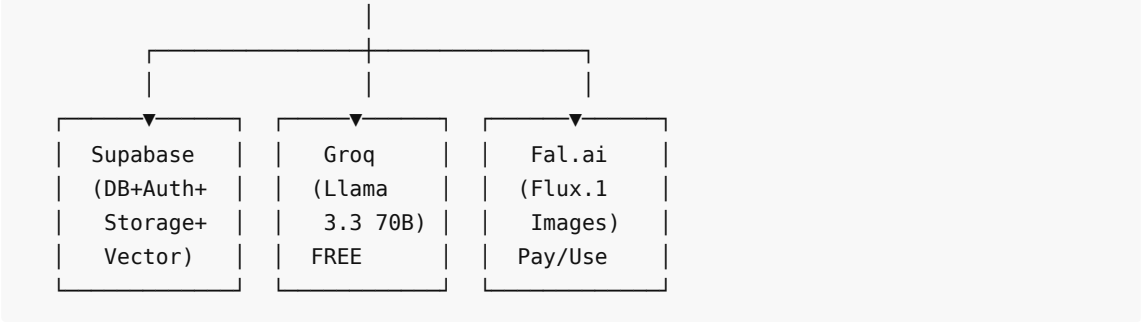

- Not every user generates an image.
- Not every user chats on WhatsApp.
- Not every user uses customer support.
- Actual API usage is distributed across features.
- AI Intelligence (Groq) is FREE — zero cost for chatbot brain.
- Costs scale only with actual usage, not total user count.

C. Cost Comparison (What Client Saves)

Expense	Industry Standard	Our Solution
Monthly Infrastructure	₹25,000 - ₹50,000	~₹3,000 - ₹5,000
CRM Software	₹4,000 - ₹15,000/mo	₹0 (Custom Built)
AI Model Training	₹50,000+ (One-Time)	₹0 (RAG Approach)
Native App Development	₹3,00,000+	₹1,50,000

4. Unified Architecture

5. Project Timeline & Delivery

Total Duration: 4-5 Weeks (Fast-Track)

Phase	Duration	Deliverables
Phase 1: Foundation	Week 1	System Architecture, Database Setup, WhatsApp AI (Basic FAQ)
Phase 2: Core AI	Week 2-3	"Magic Mirror" Feature, RAG Integration, Website Chatbot
Phase 3: Mobile App	Week 3-4	iOS & Android App Development, API Integration
Phase 4: Launch	Week 5	Testing, App Store Submission, Go-Live Assistance

6. Payment Schedule & Terms

Payment Milestones

Milestone	Percentage	Amount	Trigger
1. Kickoff	40%	₹92,000	Signing of Contract & Project Start
2. Beta Launch	30%	₹69,000	Completion of Website AI & WhatsApp Integration
3. Final Delivery	30%	₹69,000	App Store Submission & Code Handover

Terms & Conditions

- Intellectual Property:** Upon full payment, all source code and IP rights will be transferred to Dream Smile Veneers.
- 3rd Party Costs:** All infrastructure and API costs (AWS, OpenAI, WhatsApp) are billed directly to the client's accounts.
- Support:** Includes 30 days of free bug-fix support after launch.
- Delays:** Any delays due to 3rd party approvals (Apple/Google/Meta) are outside the developer's control.
